

Illuminated

July 9 - August 30, 2021

Project Gallery V

Curated by Trinity Lester and Cary Hulbert

New York City, N.Y., July 9th, 2021 | *Illuminated* is an online exhibition featuring thirteen artists. You can view the exhibition by visiting Project Gallery V's [website](#). Each of the chosen artists in *Illuminated* is included for their impeccable ability to emulate and manipulate light through their practice.

Light is one of the most fleeting and fast-moving entities in our universe, however, it is also a dependable and consistent presence throughout our lives - illuminating even one's darkest moments. Throughout this collection of work, light is interrogated in its ability to create compositional movement, tell a story, and inspire emotions - with each artist uniquely casting the power of light through their own approach. Beyond focusing on light as a natural phenomenon, this exhibition draws attention to the fabrication of light in art and its place in contemporary abstraction.

The virtual showcase features the works by Alina Birkner, Isabel Cavenecia, Jeffrey Dell, Megan Foster, Gyun Hur, Seo Kim, Lucy Lord Campana, Jasmine Murrell, Robert Rauschenberg, Elizabeth Shull, Sarah Sze, Catalina Viejo, and Paula Wilson. The exhibition includes works on paper and canvas alongside performance and installation.

Project Gallery V was established in September of 2020 by Cary Hulbert and Trinity Lester. Project Gallery V is geared towards providing a virtual space for emerging artists to exhibit alongside established artists.
